OBJECTIVE:

Seeking for a challenging career which provides continuous learning and professional growth along with job satisfaction and to give value contribution in the success of the organization.

WORK EXPERIENCE:

- **Jan 7st, 2021 - Present:** Working as a "Software Engineer" at "Intellect Design Arena Private Limited". Working on the technologies Angular, Java, Oracle, as a Full stack developer.

    Worked On:

    - **Teller Application** : Worked on Teller Application for "Arab Bank" located at Jordan. In which we have developed complex screens using Angular and REST APIs and connecting this to bank's core banking system to retrieve actual data. Maintained masters using Oracle to make application more flexible to work.
    - **Tech stack :** Angular, Java, Oracle, Bootstrap, CSS, HTML.

ACADEMIC QUALIFICATION:

- **B.Tech (Computer Science Engineering), Aditya college of Engineering and Technology, Surampalem**
  Percentage : 64% (2015-2019)

- **Intermediate (MPC), Narayana Junior College, Kakinada**
  Percentage: 88.5% (2013-2015)

- **SSC, Vignan Little Public School, Samalkot**
  CGPA : 9.5 (2012-2013)

PROFESSIONAL SKILLS:

- Operating Systems **:** Windows XP,7,8,10.

- Programming Languages **:** JAVA, HTML, CSS, JAVASCRIPT, SQL.

- Style Sheet Languages **:** CSS.

- Database **:** Oracle, MySql.

- Frameworks **:** Angular, Bootstrap, Olive Fabric.

- Packages **:** MS Office, Google Workspace.

- Tools **:** Intellij, Eclipse, NetBeans, VisualStudioCode, Postman,

   SQL developer, Git, GitHub, Jasper Reports, Putty, WinSCP.

- Other **:** JSON, REST APIs.

ACADEMIC PROJECTS:

- **Fast Combinational Architecture for a Vedic divider Project :** We have developed an architecture that makes a divider more efficient than before using Xilinx ISE 14.7, Verilog HDL.

PERSONAL PROJECTS:

- **Employee Management System :** I made an employee management system application in which we can create an employee and we can save it in Database. We can also view the list of employee in a grid that are saved in Database using concepts like Http Requests, Routing etc.
  Tech stack : Angular, Java, Spring Boot, MySql, Tomcat, Bootstrap, GitBash, GitHub .
- **Static Portfolio website :** I made a Static portfolio website for one startup named as "Color secrets" . In which I used HTML, CSS to display there content like Services using navigation bar to navigate the services.
  Tech stack : HTML, CSS, GitBash, GitHub.

ACADEMIC ACHIEVEMENTS:

- Secured **"Runners"** position, Representing **ADITYA COLLEGE OF ENGINEERING AND TECHNOLOGY CRICKET TEAM** in the **JNTUK INTER COLLEGIATE TOURNAMENT OF CENTRAL ZONE-B** held at **IDEAL INSTITUTE OF TECNOLOGY** on 28th feb 2018.

- Recipient of **second prize** in **Technical Quiz** in "**Veda-2K16**" conducted in Aditya Engineering College.

- Bagged **Third prize** in **"AGBS Stock Exchange"** conducted by **Global Business School** in 2017.

EXTRA-CURRICULAR ACTIVITIES:

- Captain of **ADITYA COLLEGE OF ENGINEERING AND TECHNOLOGY CRICKET TEAM** for two successful years and made my team as one of the top in my zone.

Workshops:
- Attended a one week workshop on **"Basic Webdevelopment"**conducted by **Thub.**
- Attended a two days workshop on **"IoT with Cloud"** held at **Aditya college of Engineering and Technology**, Surampalem.
